Guelph, ON N1G 4V8

Dear Mr. Bird,

This letter is to advise that Environment and Sustainable Resource Staff (Resource Management) have reviewed the Bull Creek Wind Project Environmental Protection Plan (Document # 201560101504; April 23, 2015). This plan was developed in consultation with ESRD Resource Management staff and meets all requirements. The draft provided on April 23, 2015 is considered current and any changes to the plan, with the exception of the addition of site drawings and infrastructure information to Appendix A and the contact list to Appendix F, will require further review to ensure that wildlife and habitat are protected.

Sincerely,

A handwritten signature in blue ink that reads "Emily Herdman".

Emily Herdman
Wildlife Biologist
