Dear Resident,

Re: Burdett Solar Project

I am writing to inform you that Burdett Solar Limited Partnership, a subsidiary of BluEarth Renewables has filed an application with the Alberta Utilities Commission (the "Commission") to extend the required construction completion date of the Burdett Solar Project (the "Project") from January 31, 2018 to July 31, 2020. The request to extend the construction timeframe is being made so that the Project is able to participate in upcoming energy procurement opportunities.

The Project location has not changed and is proposed to be located within quarter section SE-15-10-12-W4 at the intersection of Township Road 102 and Range Road 122, approximately 1.5km southwest of Burdett. Should the Project be awarded a power purchase agreement in an upcoming procurement initiative, it is anticipated that the earliest construction would start is April 2019.

The existing Commission approval for the Project is 22345-D02-2017. The application to amend the construction completion date is made under Proceeding 23364. This letter is provided to meet the Commission's requirements for a participant involvement program whereby residents within 2km of the proposed project are notified of this amendment application.

In addition, Burdett Solar Limited Partnership will be filing a further amendment to alter some of the proposed power generating equipment at the facility. The project boundary would remain the same. The proposed equipment changes include the following:

- Increase inverter operating voltage from 1000 V to 1500 V
- Increase inverter / medium voltage inverter station, nominal AC power output from 2,200 kW to a maximum of 5000 kW per station
- Increase solar panel peak power max from 320 W up to 400 W

For more information about the Project, schedule, and proposed equipment changes, visit www.bluearth.ca/burdett.

Burdett Solar Limited Partnership is also holding a public meeting where project representatives will be available to discuss this project and the proposed changes. The meeting details are:

May 29, 2018, 5:30 p.m. to 8:00 p.m.
Burdett Community Hall
310 Main Street, Burdett

Should you have any questions about the project or the proposed amendments, please contact BluEarth at 1-844-214-2578 or projects@bluearth.ca.

Yours truly,
Burdett Solar Limited Partnership
