**BluEarth Renewables** is a leading, independent, power producer that acquires, develops, builds, owns, and operates wind, hydro, solar and storage facilities across North America. Our portfolio includes 1 GW MWAC (gross) in operation, under construction & contracted pre-construction, and over 7 GW of high-quality development projects that are actively being advanced.

**Clearway Energy Group** is leading the transition to a world powered by clean energy. Along with our public affiliate Clearway Energy, Inc., we own and operate more than 8 gigawatts of renewable and conventional energy assets across the country, enough to power 1.7 million homes with clean energy every year. For more information, visit [clearwayenergygroup.com](http://clearwayenergygroup.com).
