

# Two Rivers Wind Project Fact Sheet

## Project Overview

Two Rivers Wind LLC, is a joint venture partnership between BluEarth Renewables US LLC and Clearway Energy Group LLC. The project will consist of wind turbines, a substation, electrical collector systems and roads, and 230 kv transmission lines to the point of interconnection.

Project Details	
Location	North of Highway 30 and Medicine Bow
Point of Interconnection	Freezeout substation
Project Area	Approximately 15,600 acres
Expected Capacity	Up to 280 MW
Preliminary Site Plan	Up to 38 wind turbines on Two Rivers Ranch
Timeline	
Permitting and Approvals	2018 - 2025
Construction	Late 2025
Commercial Operations	Late 2027
Estimated Economic Development & Community Benefits	
Cost of Construction	\$649 million*
Local & State Sales Taxes	\$16 million*
Lifetime Wind Tax <small>Lifetime Property Tax &amp; Wind Energy Production Tax</small>	\$111 million* <small>over 30-year project life</small>
Number of Jobs	Up to 170 during construction 10 during operations and maintenance

\* To be revised based on final regulatory approval

### About BluEarth

BluEarth Renewables brings together extraordinary people with the power to change the future™ by delivering renewable energy to the power grid every day. We are a leading, independent, power producer that acquires, develops, builds, owns and operates wind, hydro, solar and storage facilities across North America. Our portfolio includes over 950 MW<sub>AC</sub> (gross) in operation, under construction and contracted pre-construction and over 7 GW of high-quality development projects that are actively being advanced. In addition, we provide third-party operations for over 300 MW of wind and solar across North America.
